The reviewer checked the revised manuscript carefully. It is apparent that the original manuscript has been improved according to the reviewer's comments. However, the revised manuscript displayed two extra captions "Fig. 8(a) and Fig.8(c)" on Figures 2 and 3. Hence the author(s) must check the article carefully.	<a href="#">Thanks for the reviewer to point this issue. We really appreciate it. According to your valuable feedback, we removed the fig.8 title from the original publication at the bottom figure and cite this ASME journal paper again in the caption of figure 2 and 3, respectively.</a>
