

SDI Review Form 1.6

Journal Name:	<u>PhysicalScienceInternationalJournal</u>
Manuscript Number:	Ms_PSIJ_24118
Title of the Manuscript:	Non-Relativistic Bose-Einstein Condensates, Kaon droplets, and Q-Balls
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Absent	
<u>Minor</u> REVISION comments	Absent	
<u>Optional/General</u> comments	The paper discusses Q-balls drawing similarity with BEC. This is timely for the centenary of relativity although it uses non-relativistic Schrödinger equation. This is because of $E=mc^2$ - particle and energy relation. This is also important in the context of finite systems. The paper can be accepted.	we address all of the comments of the referees
