

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_24621
Title of the Manuscript:	The interface between source RF and the human body, by numerical modeling
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Compulsory REVISION comments	The paper is excellent and presents correctly a numerical method which aims to solve the electromagnetic radiation effects of radio frequency source on the human body.	Thank you for your comment, and I am very happy of the classification of my paper. best regards
Minor REVISION comments	1. I suggest the following title for the paper: "Numerical modeling of the interface between source RF and the human body" 2. I suggest the following keywords: numerical method, electromagnetic radiation, interface, radio frequency. biological tissues, finite element formulation	I agree with your suggestion I'll put them in my paper. Thank you
Optional/General comments
