

**SDI Review Form 1.6**

Journal Name:	<a href="#">Physical Science International Journal</a>
Manuscript Number:	<b>Ms_PSIJ_27436</b>
Title of the Manuscript:	<b>INFLUENCE OF TOPOGRAPHY ON SURFACE RADIO REFRACTIVITY PATTERNS OVER NORTH CENTRAL, NIGERIA</b>
Type of the Article	<b>Original Research Article</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**SDI Review Form 1.6**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<p><b>Update reference about microwave propagation , I suggest the following papers to be added as references:</b></p> <ol style="list-style-type: none"> <li>1- Marghany, Maged. "DInSAR technique for three-dimensional coastal spit simulation from radarsat-1 fine mode data." <i>Acta Geophysica</i> 61.2 (2013): 478-493.</li> <li>2- Marghany, Maged. "Three Dimensional Coastline Deformation from Insar Envisat Satellite Data." <i>International Conference on Computational Science and Its Applications</i>. Springer Berlin Heidelberg, 2013.</li> <li>3- Marghany, Maged. "DEM reconstruction of coastal geomorphology from DINSAR." <i>International Conference on Computational Science and Its Applications</i>. Springer Berlin Heidelberg, 2012.</li> <li>4- Marghany M. Hybrid Genetic Algorithm of Interferometric Synthetic Aperture Radar For Three-Dimensional Coastal Deformation. InSoMeT 2014 Aug 29 (pp. 116-131).</li> </ol> <p>The eq 1-8 are require references.</p> <p><b>The discussion must be address in separate section.</b></p>	<p>The papers listed here were not cited in the write up. However, the author has downloaded the papers and will be relevant in subsequent research that will be published soon.</p> <p>The discussion has been rearranged as suggested and equations 1 – 8 had been referenced.</p>
<b><u>Minor</u></b> REVISION comments	Editing English	
<b><u>Optional/General</u></b> comments	References must be updated as mentioned above
