

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_27869
Title of the Manuscript:	Natural Convective Mass Transfer MHD Flow of Chemically Reactive Micropolar Fluid past a Vertical Porous Plate
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Though solution of the present problem is okay, but the presentation of the abstract, Introduction and results are not written properly. Such as abstract is not clear, Introduction should be brief, no novelty, and there is no new physics behind the discussion. Hence author has to improve in all respect otherwise paper can't be published in its present form.	I try my best to develop abstract and result and discussion part.
