

**SDI Review Form 1.6**

Journal Name:	<a href="#">Physical Science International Journal</a>
Manuscript Number:	<b>Ms_PSIJ_28694</b>
Title of the Manuscript:	<b>PARTICLE CREATION AND STRUCTURE OF ATOMIC NUCLEI IN THE UNIVERSE MODEL WITH MINIMAL INITIAL ENTROPY</b>
Type of the Article	<b>Original Research Article</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	New ideas about the origin and evolution of the Universe using the Laws of similarity and unity in the Universe are presented to give a description of the structure for the heavy ( $Z \geq 4$ ) cores, as well as the hierarchy of bosons interaction. <b>Work is good but needs a revision of its English language.</b>	Thank you for your support. Revised version of manuscript contains some extensions, which describe in detail important parts of scientific problem. Also references list was extended. Author made an attempt to slightly review English language quality, taking into account all reviewers proposals and comments.
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
