| Type of the Article | |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <u>Compulsory</u> REVISION comments | | |
| <u>Minor</u> REVISION comments | | |
| <u>Optional/General</u> comments | Laplace transform method was used for many partial differential equations. It was published before. You can see from 'Afshan Kanwal , Syed Tauseef Mohyud-Din, Coupling of laplace transform and correction functional for wave equations, World Journal of Modelling and Simulation, Vol. 9 (2013) No. 3, pp. 173-180' | |
