#### **SDI Review Form 1.6**

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_24426
Title of the Manuscript:	Active-Reactive Power Stability Analysis a Micro Grid in Grid to Connected Mode Based on Particle Swarm Optimization (PSO) Including Model Information
Type of the Article	Original Research Article

#### **General guideline for Peer Review process:**

This journal's peer review policy states that NO manuscript should be rejected only on the basis of 'lack of Novelty', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

## **SDI Review Form 1.6**

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This paper is from the area of Swarm Intelligence and mainly concerned with the power flow between main grid and micro grid with two parallel DG units.	
	Before I go any forward there is no need to separate the abstract into different parts. An abstract should consist of a brief idea about all parts of the paper but there is no need to divide it into parts. A 10 to 15 line abstract with keywords would suffice	
Minor REVISION comments	The diagrams and math part of the paper are good and the proposed algorithm has been simulated and visualised nicely. The conclusion is also OK.	
Optional/General comments	NONE	

#### Reviewer Details:
