FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Minor corrections... Format improved; however, one should always put the text on a figure near the figure. I may have fouled up the format where the author may have a paper page constraint. No need to see me again...</p> <p>In the future, the author regarding equations, should use a blank space for upper exponents such as squared terms for clarity...</p> <p>Good paper... accept....</p>
