

**SDI Review Form 1.6**

Journal Name:	<b><u>PhysicalScienceInternationalJournal</u></b>
Manuscript Number:	<b>Ms_PSIJ_24118</b>
Title of the Manuscript:	<b>Non-Relativistic Bose-Einstein Condensates, Kaon droplets, and Q-Balls</b>
Type of the Article	<b>Original Research Article</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<b>Absent</b>	
<b><u>Minor</u></b> REVISION comments	Absent	
<b><u>Optional/General</u></b> comments	The paper discusses Q-balls drawing similarity with BEC. This is timely for the centenary of relativity although it uses non-relativistic Schrödinger equation. This is because of $E=mc^2$ - particle and energy relation. This is also important in the context of finite systems. The paper can be accepted.	

**Reviewer Details:**

Name:	S B Ota
Department, University & Country	Institute of Physics, Bhubaneswar, India
