Manuscript Number:	<b>Ms_PSIJ_25255</b>
Title of the Manuscript:	<b>Energy Management Optimizing in Energy Hub with Regard to Pollution and Storage Effects</b>

**PART 2:**

<b>FINAL EVALUATOR'S comments on revised paper (if any)</b>	<b>Authors' response to final evaluator's comments</b>
<p>In spite of the improvements brought, the quality of the English is pretty bad and remains incomprehensible most of the time.</p> <p>The same results were displayed in another manuscript submitted in Physical Science International Journal (reference 24779) !</p> <p>I advise the authors to merge the two papers, PSIJ_24779 and PSIJ_25255, and collaborate with a research team who master energy storage and English in order to render a decent paper.</p> <p>Although the energy hub is interesting, I must reject the paper, because of the poor quality of the text and the redundancy with another submitted paper.</p>
