

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_26957
Title of the Manuscript:	Heat and Mass Transfer of Laminar Boundary Layer Flow of Non-Newtonian Power Law Fluid past a Porous Flat Plate with Soret and Dufour effects
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Optional/General</u> comments	Having familiarized myself with the reviewed paper, I state that I have no objections to the way in which the author formulated the aim of the work and developed the methodology necessary for its fulfillment, as well as to the way in which he solved the problems analyzed in his paper. To solve the problem, the author applied adequate scientific methodology. The thesis contains significant new results, the following are the detailed observations, 1.Author(s) has given the clear conclusion and also discussed the results. 2.velocity, temperature and concentration fields are discussed graphically. 3.solved the equations using Finite difference method 4. Numerical study of the above effects is good .
