

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_30140
Title of the Manuscript:	ON THE GRAVITATIONAL SHIELDING PHENOMENON
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>It should be clearly indicated in the text that the discussed shielding mechanism differs essentially from Yukawa type interaction arising in $f(R)$ gravity [1002.4928], massive gravity [0902.0144] and cosmology [1509.03835]. In addition:</p> <p>Lines 80, 81: exclude "you"; Line 107: s^2 in dimensionality of G; Line 108: R_E^2 in the formula for g_n.</p>	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	<p>The note contains disputable though interesting ideas related to explanation of Allais effect and may deserve the readers' attention.</p>
