

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_31114
Title of the Manuscript:	The Galilean limit of Quantum Gravity: Corrections to the Newton's Law
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	In this study, author tries to find weak field limits of his proposing quantum gravity model based on the valuable hydro dynamical quantum mechanical approach. He also derives the contribution from these quantum fluctuations and gives experimental insight for controlling the proposed theoretical model. This is a worthy study in the context of his interesting proposal.	The referee in a correct way describes the objective of the paper.
