

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_32824
Title of the Manuscript:	Effects of MHD Thermal Radiation and Heat Source of viscous flow over a nonlinearly stretching sheet with Viscous Dissipation
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<ol style="list-style-type: none"> 1. Only inclusion of new references and clarification of some points raised by the reviewers is not sufficient for publication. They have to look after all the clarifications. 2. The followings are not corrected by the authors from previously raised questions: Abstract (Pts.(3,4)), Mathematical formulation (Pts.(1,2,6)), Results discussion (pts.(1,2)). 3. Redraw all the graphs for clear significance of all the parameters, comparison table for the validation of the result with earlier published results and flow geometry must. Revise all these and put yellow marks for the corrections and send it for further consideration. 	<ol style="list-style-type: none"> 1. Included the recent papers references in manuscript as suggested and marked in yellow. 2. Abstract corrected as required, Corrected Mathematical formulations and changed the results discussion as required also changes are marked in yellow. 3. There was no table available in previous table, and in this paper included the table as required. Since there was table in previous paper no comparison table included in current paper.
