PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	The paper is very complete in their analysis. The author has consulted a wide literature in the theme. The author must to write the paper accord to the quality journal format.	I have tried to use the normal scientific format in my text. It is similar to what I have used in my previous manuscripts. It is well-known that each author has his/her personal style. Because it would be a laborious task to write the whole text again, I hope that this format is good enough.
