

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_37038
Title of the Manuscript:	Generalized Uncertainty Relations in Quantum Mechanics and the Principles of Completeness in Physics
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	1. I felt the author should write their abstract as" We present an alternative local way of describing the undulatory aspects of quantum entities using Gaussian Mortel wavelets. Our findings show a clear different philosophical conclusion between quantum and macroscopic realms. The heuristic power of wavelet local analysis for the physical description of nature was discussed". 2. The author should mention past investigations, their conclusion and motivation under Introduction 3. They should correct any error or misprint in the work.	1. Partially modified. 2. Done. 3. Done.
<u>Optional/General</u> comments	The work is quiet interesting and it is thereby recommended for publication subject to the above minor corrections.
