

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_37327
Title of the Manuscript:	Mesoscopic RLC Circuit and its Associated Occupation Number and Berry Phase
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Nil	
<u>Minor</u> REVISION comments	Nil	
<u>Optional/General</u> comments	It will become more helpful for other researchers if results are presented numerically as well.	I added a section, Section 3C, to the paper discussing the occupation number for both solutions, root-mean-squared value of the occupation number associated with the solution of the Ermakov equation, and numerical value of the Berry phase.
