

**SDI Review Form 1.6**

|                          |   |
|--------------------------|---|
| Journal Name:            | <a href="#">Physical Science International Journal</a>        |
| Manuscript Number:       | Ms_PSIJ_38354   |
| Title of the Manuscript: | Coal-fired Power Plants and their impact on Ecosystems Health |
| Type of the Article      | Original Research Article                                     |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

|  | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| <b><u>Compulsory</u></b> REVISION comments | none   |   |
| <b><u>Minor</u></b> REVISION comments      | Line 206: ..plants showed <del>poor</del> poor performance...  | corrected   |
| <b><u>Optional/General</u></b> comments    | It is a brief summary of known impacts of coal-fired power plants on health and the environment as whole, and description of greenhouse experiment which demonstrated their impacts on the health of immediate ecosystems, and a useful to consider in the search for their mitigations including where to locate coal-fired power plants in view minimizing their impacts on animal and plant habitats. | Great suggestion. I have added a sentence on lines 216-218  |
