

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_29315
Title of the Manuscript:	Hydromagnetic waves in the self-gravitating porous medium under the effect of electron plasma frequency and Coriolis force
Type of Article:	Review paper

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
It seems that authors have not taken the comments seriously given by the reviewer. First of all they have not replied all the points given by reviewer. There are so many capital letters with in manuscript, which has to be modified. Authors have not given the justified answer of the major points 1-5, which is mandatory. There are many grammatical mistakes throughout the manuscript which must be improved. So it is suggested to authors to proof read the manuscript by any eminent professor of English language. At this stage i will not recommend the manuscript for publication, until the authors gives the proper responses of points 1 and 2.
