

SDI Review Form 1.6

Journal Name:	<u>Physical Science International Journal</u>
Manuscript Number:	Ms_PSIJ_30035
Title of the Manuscript:	Theoretical Computation of Magnetic Field Density within the Vicinity of Rukpokwu 11 KVA Distribution Power Lines
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The paper deals with the calculating of the magnetic field due to power distribution lines.</p> <p>The applied methods are elementary and do not merit an own publication. Furthermore, similar problems can be found in some elementary Physics textbook. (Giancoli, Douglas C. Physics: principles with applications. Pearson Education, 2005.)</p>	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	I suggest the author/authors to make some simple experiments and compare the results.	

Reviewer Details:

Name:	Mehmet Şirin Demir
Department, University & Country	Mechanical Engineering Department, Istanbul University, Turkey
