

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_32862
Title of the Manuscript:	Approximation of the Dew Points Temperature using a Cost Effective Weather Monitoring System
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
This paper has been revised properly. However, some comments are given as follow: 1. The notations T_n and m in Eq. (1) are not defined accordingly. 2. In page 2, the second paragraph, line 4, "... field of study known as meteorology is devoted to it ..." is suggested change to, "... field of this study is devoted to meteorology, which is the science ..." 3. In page 2, the fourth paragraph, the first sentence is suggested change to "The climate of an area, which describes the average weather conditions, is known through" and delete the second sentence. For convenience, those are amended are written in the red color.
