SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>Lines 26 – 27 “The resulting leachate...are not affected” (Provide reference)</p> <p>Lines 28 – 30 have claim that needs proof: “...without effective safety and control measures” (Provide reference).</p> <p>Lines 37 – 41 have many unfounded assertions without either statistical evidences or references. Please provide proofs.</p> <p>Lines 47 – 50 need references Lines 61 – 73 need references</p> <p>Lines 165 and 172: separate the Fig. caption from the write-up. Do same in other places they occurred.</p> <p>In your materials and method, you only gave the description of the instrument used. What of the 4 VES stations you mentioned?</p> <p>In your conclusion, you mentioned functional and abandoned dumpsites. Which of the four stations are grouped as functional and abandoned? Could you describe them in the methodology?</p>	
<u>Minor</u> REVISION comments	<p>Line 60: Change the referencing to [4; 5] Line 132: [6; 13; 14] Also use this format for the others</p>	

SDI Review Form 1.6

<u>Optional/General</u> comments	The methodology, in terms of study location and distribution should be revised. The result needs revision, especially in the case of “functional and abandoned dumpsites”
