SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_40026_A
Title of the Manuscript:	Investigation of Field Induced Effect of High Voltage Transmission Line in Calabar South, Nigeria.
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that <u>NO</u> manuscript should be rejected only on the basis of '<u>lack of Novelty'</u>, provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

Compulsory REVISION	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
comments	 supposes the author misuse the unit of electric field. It should be kV/m,other than v/m in table 1,table 2,table 3 figure3 and figure 4. Please read and make ref for the following link and paper (<u>http://www.icnirp.org/cms/upload/publications/ICNIRPemfgdl.pdf</u>) and the published paper("Development of a wireless sensor network for distributed measurement of total electric field under HVDC transmission lines." International Journal of Distributed Sensor Networks 2014 (2014). 2 The author should depict the parameters of the measurement, such as, height of transmission line, number of bundles, diameter of power line, etc, in the table 2,table3, figure 3,figure 4. 3 Figure 1 is not very clear. It should be redraw by the authors. 4 Introduction part is very long and there is no logical arrangement for this part. The author can reorganized this part and focus much more on the innovation work in this paper. 	
Minor REVISION comments	The author could update some reference papers to the newest one.	
Optional/General comments
