SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	It may be better to use additional expressions to describe the derivation of unknown parameters a_j.	The unknown parameters a_j does not need any additional expressions to describe it.
<u>Minor</u> REVISION comments	<ol style="list-style-type: none"> 1. Table 2 contains one redundant column. Please delete it. 2. If possible, third columns of Tables 1 and 2 may be changed to "Interpolation results". 3. The authors seemed to adopt full journals' names in editing the reference list. Therefore, the formats of References [1-2] may be revised by using full journals' names. 	<ol style="list-style-type: none"> 1. The column has been deleted. 2. The third columns in table 1 and 2 cannot be changed to interpolation results because it is the errors obtained from our new method that are displayed there. So the original label is appropriate. 3. The references have been revised to the pattern of PSIJ.
<u>Optional/General</u> comments	NA
