

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_22219
Title of the Manuscript:	Numerical Treatment of General Third Order Ordinary Differential Equations Using Taylor Series as Predictor
Type of the Article	Original

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	<ol style="list-style-type: none">1. No indication with respect to computational time in the numerical experiments2. What happen if there exists jump in the solution3. What are the future directions of the paper	<ol style="list-style-type: none">1. Time to get the solution was not considered.2. There was no jump in the solution. In future, one step linear multistep method3. In future, we would look into the numerical solution of ODEs Initial Value Problem using a one step linear multistep method.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
