

Editorial Comments:

- 1-Motivations are not clear enough
- 2-More discussions are required.

Author's Feedback:

Thank you, Editor, for your valuable comments. I have finished corrections and supplements in your opinions as follow:

- 1. Motivation is supplemented.
- 2. In discussion, we explain why the results calculated theoretically based on K.P model are basically out of accord with ones measured in experiment.,
- 3. Other supplement.
