PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The experiment performed in this work should be clearly projected by creating a methodology subsection. Otherwise the paper appears to be the explanation of a scientific event only.</p> <p>Something to be written about the data that handled.</p>	I did not perform experiments in my work. I cite many experiments in my references. All extensive details and data of the experiments are found in the references. My paper is a theoretical one. Its aim is to explain this scientific event theoretically.
