Title of the Manuscript:	Adiabatic Lapse Rate of Water Is Negative Due to the Negative Compressibility
Type of Article:	Short Communication

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I don't know the author(s) refused to show graphical illustration of their results as suggested in the previous comments. Graphical illustration enhances better interpretation of results. So I suggest again..	I looked very hard to find such data in my paper which could be illustrated graphically, and could not find them. If you see such data, then please tell me.
