

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_42359
Title of the Manuscript:	Intermittency of regular and chaotic motion in the dynamic system with multiple Lorenz attractors
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	1) I suggest the authors to revise the format of the paper carefully since there are some redundancy and grammatical errors in the manuscript. 2) Each line should be aligned at both ends, also some sentence lack of punctuation. 3) I suggest the authors to give some comments on the future study of this study in the Conclusion section. 4) The contribution of this manuscript should be strength in the Introduction section.	1) The format of the article has been checked; found by the author grammatical errors have been eliminated 2) The text is aligned at both ends, was found by the author of the punctuation errors fixed. 3) A comment on the future of the study has been added to the Conclusion section. 4) The Introductory section is strengthened.
Optional/General comments
