

**SDI Review Form 1.6**

Journal Name:	<a href="#">Physical Science International Journal</a>
Manuscript Number:	Ms_PSIJ_41102
Title of the Manuscript:	Identity that Connects Thermal Expansion and Isothermal Compressibility is Not an Identity for Condensed Phases
Type of the Article	Short Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments		
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments	After review process of the research article I suggest its publication with great pleasure. This is very important research in the field of thermodynamics that shows significant application of Mayer's relation.	

**Reviewer Details:**

Name:	Jelena Purenović
Department, University & Country	Department of Physics and Materials, University of Kragujevac, Serbia
