

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_41782
Title of the Manuscript:	Seasonal Variations of Ionospheric Scintillations and Total Electron Content over a Terrestrial Point within Magnetic Anomaly Region
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper needs a complete revision. The topic is interesting but the paper must highlight the new contribution to the scientific knowledge in this matter. It is necessary to give the goal of this paper in the context of the actual scientific results. For that, the author must improve the introduction with an actualized bibliography presenting the actual state of art and writing the aim of this study clearly. The Conclusions must show the new results and present an discussion of them in the context of actual knowledge.	
Minor REVISION comments		
Optional/General comments	The results might be important if well presented and discussed
