

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_42560
Title of the Manuscript:	Excess Parameters of Binary Mixtures of 1, 2-Dimethoxyethane-Propylene Carbonate and 2-Methoxyethyl Ether-Propylene Carbonate
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment:	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors have studied different physical and thermodynamic properties of separate liquid mixtures at variable temperatures. I feel the explanation of the manuscript is quite poor. This is a study of basic physical properties and not relevant to the literature. Lots of syntax and grammatical errors are visible in the paper. Authors are requested to rewrite the paper and may send it again with advanced and extended works. English language has to be improved.	
Minor REVISION comments		
Optional/General comments
