**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b><u>Compulsory</u></b> REVISION comments	Abstract Line 22-23: The sentence "However, 22 neither of these efforts was able to provide information for the whole of Africa" is repeating in next line. Results & Discussion: Line 50-51: How did you determine day and night time warming as there is only annual analysis given. Line 64: please explain how did you determine the rate References: References should be written according to journal's guidelines Methodology is not clear.	Thank you for your observations and comments, necessary corrections have been effected.  Table 1. gives the information on the different percentile from which cold and warm day are derived.  Ok.
<b><u>Minor</u></b> REVISION comments	References are too less thus author should include more references to support the study	More references have been added.
<b><u>Optional/General</u></b> comments		

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
