PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|--|
| Compulsory REVISION comments | <p>This is an interesting study that emphasizes the importance of understanding the origin of contaminates in food stuffs. The author(s) might like to consider the possibility of future studies by comparing commercially produced flours, if available, with their own lab results. The following corrections should be made:</p> <p>line 16: replace "lots of" with "many" line 55: superscript degree symbol line 57: superscript degree symbol and add C. or Celsius</p> | <p>Authors very much appreciate the comments of the reviewers. We will try to incorporate the comparative study in our next manuscript</p> <p>Corrections have been made according to the comments</p> |
| Minor REVISION comments | | |
| Optional/General comments | | |
