**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Authors have presented acoustic analysis of lecture hall and done some experimental work to check compliance of the hall with reference to international standards.</p> <p>The presented work needs major revisions to ensure a quality publication in context to the following:</p> <ol style="list-style-type: none"> <li>1. Mathematical/theoretical formulation is missing in the paper. There should be a mathematical relation in sound level, reverbation time, room dimension and wall properties. Detailed mathematical treatment is expected to be disclosed to reveal effect of these parameters.</li> <li>2. Authors should suggest optimum and required room dimensions, wall properties and other factors based on the mathematical formulation.</li> <li>3. Detailed and exhaustive literature survey is required.</li> <li>4. There should be uniform style for references</li> <li>5. Major revision in grammar, sentence formation to make it a technical document.</li> </ol> <p>Major revision in structure of the paper.</p>
