General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<ol style="list-style-type: none"> 1. In some parts of the manuscript, the authors refer to the parasite as <i>Paragonimus uterobilateralis</i>, and in other parts solely as <i>Paragonimus</i>. Why the difference in the nomenclature?. What reliable techniques were performed in order to be able to refer to it as <i>P. uterobilateralis</i>? 2. Fig.2. Please do not repeat data on the Figure that has been explained already on the manuscript. Either you explain data with the Figure or on the manuscript. 3. Conclusion: The authors name <i>Sudanautes africanus</i> for the first time in the conclusion. It should have been named before, anywhere in the text. 	
Optional/General comments	The manuscript contains valuable information to be published, after the review comments have been made.
