PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article contains some inaccuracies in the formulation of some sentences and in the writing of individual words, and therefore needs to be further edited.	I do this all correctly.
Minor REVISION comments	In our opinion, in this study, the author does not show at the proper level – how the results, which he obtained in his work, can be used in the future to improve the profitability of watermelon production in Patuahali District.	I discuss this in my results section and add some recommendation in the conclusion section. Also change my title.
Optional/General comments	The given research covers a very narrow sphere of economic activity.	I change my title as Gross margin and Factor Analysis of Watermelon Production in Patuakhali District, Bangladesh.
