General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	See the attached file.	I see the attachment and also reorganize my paper as your comments without unit related comments. You recommended that to use standard unit in case area and production unit that change decimal to ha but i think this is not possible because if i change the analysis would be done another time and might be results would be changed. (at the time of data collection the respondent said their all information at per decimal and per piece not given weight). Please think this.
Minor REVISION comments		
Optional/General comments
