Compulsory REVISION comments	<ul style="list-style-type: none"> -ADF test is not an estimation method... -Introduction section is weakly written. -Paper is too long and should be shortened analytically. -I did not understand this sentence: "The reason for this result may be as result of pervasive corruption and mismanagement, which has bedeviled the Nigerian economy to meet its debt service payments obligations." -Corruption and foreign debt problem are not well explained in the text. -Another thing that authors may mention in the text about the places that the foreign debt is used. Is this debt government's or private sector? Authors should explain the debt structure and its relationship between growth with a discussion.
